KUSHAL PATEL

Indore, MP, India | +91-7024400235 | kp88053@gmail.com | LinkedIn | GitHub | LeetCode

Technical Skills

Languages: Java , JavaScript, TypeScript, SQL
Technologies & Frameworks: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, Node.js, WebSockets, React.js, RESTful APIs, Microservices, Temporal, Apache Kafka, RabbitMQ, ActiveMQ, Redis ,Prometheus , Grafana , MySQL , PostgreSQL
Cloud & DevOps: AWS (EC2 ,ECR,ECS, RDS, S3, Lambda, SES, Route 53, Elastic Beanstalk, CodePipeline, CodeDeploy, CodeCommit, AMI), Docker, Kubernetes, CI/CD, cPanel
Developer & Testing Tools: Git, GitHub, Postman, JUnit, Mockito, Redis Insight, Kafka UI, VS Code ,IntelliJ IDEA

Experience

Gruslabs Software Solution Pvt. Ltd. **Mar 2025 – Present**
Software Development Engineer *Indore, India*

Project: VentoMotors

- **Full-Stack Production Dashboard**: Developed a full-stack real-time factory dashboard with a **React.js** frontend utilizing **IndexedDB** for local state management and **Java / Spring Boot** RESTful APIs for defect tracking, production analysis, and tracking PDP, assembly line metrics, unpacking, and hourly targets.
- **Dashboard API Optimization**: Re-engineered analytics APIs by integrating an asynchronous processing pipeline with **ActiveMQ** and **Redis**, queue-processing factory records and caching calculated metrics so APIs serve pre-computed results instantly, reducing response time from **30-40 seconds to 2-5 seconds (95%+ improvement)**.
- **My Vento App – Digital Service Book**: Built the Beta **Digital Service Book** module from scratch for two-wheeler maintenance, periodic servicing schedules, and service history tracking integrated with the **My Vento** app.
- **Live Defect Video & Real-Time Chat**: Developed a real-time inspection service using **Node.js**, **WebSockets**, and **Redis Pub/Sub** to enable live video sharing of two-wheeler component defects and instant live chat between service technicians and quality teams.
- **Cloud Migration**: Migrated core backend infrastructure and databases from on-premise Plex servers to **AWS EC2** instances and **AWS RDS** for high availability and scalability.
- **Invoicing Service & CI/CD**: Automated billing workflows via **Zoho Invoice API**, cutting manual effort by **90%**; implemented automated CI/CD pipelines using **AWS CodePipeline** , **CodeBuild** ,**ECR** and **ECS**.

Project: Kyosk (B2B E-Commerce)

- **Platform Summary Service**: Architected an automated **Spring Boot** reporting service generating daily admin summaries across user growth, sales volume as each zones , airtime order and loan metrics etc
- **Notification Service**: Managed high-throughput **Apache Kafka** consumers for asynchronous delivery of **10k+ daily** Email, WhatsApp, and SMS notifications; integrated **WhatsApp Twillio API**.
- **Recharge Service**: Developed a fault-tolerant backend recharge microservice supporting high-volume payment and top-up transactions for telecom operators Vodacom , MTN Group , Orange , Globacom and Airtel with **99.9% reliability**.
- **Catalog Service**: Built dynamic, area-specific catalog microservices using **Elasticsearch** to manage location-based product listings and real-time warehouse inventory.
- **Recharge Service Production Support**: Resolved critical payment and top-up failures for high-volume telecom operators (Vodacom, MTN, Orange) by troubleshooting asynchronous message flows, debugging transaction states, and ensuring 99.9% system reliability.

Walkover Web Solutions Pvt. Ltd. **Jul 2024 – Jan 2025**
Software Development Intern *Indore, India*

- **MSG91**: Developed and optimized RESTful APIs for user management and email analytics dashboards. **Link**
- **ViaSocket**: Built **100+ workflow automation plugins** using **JavaScript/Node.js**, integrating third-party REST APIs including Gmail, Slack, and Google Sheets. **Link**

Projects

Email Sender as a Service (SaaS) | ***Next.js, RabbitMQ, Redis, Kubernetes, MongoDB*** **Link**

- Designed and developed a scalable email-sending platform using **Next.js** for the application layer, with **RabbitMQ** (pub/sub) and worker nodes for asynchronous background processing.
- Integrated **AWS SES** to reliably send and deliver high-volume transactional and marketing emails.
- Authored **Kubernetes manifests** to deploy and manage **Dockerized microservices** (**Redis**, **RabbitMQ**, and **MongoDB**) ensuring reliable message queuing and persistent storage.
- Configured **Horizontal Pod Autoscaling (HPA)** in Kubernetes to achieve a throughput capacity of **100,000+ emails/day** under peak load.

Education

Institute of Computer Science, SAGE University, Indore **Nov 2022 – May 2024**
Master of Computer Applications (MCA) *CGPA: 7.2/10*

Govt. Holkar Science College, Indore **Jul 2018 – May 2021**
Bachelor of Computer Applications (BCA) *CGPA: 7.2/10*

Achievements & Extracurricular

- **Problem Solving**: Solved **800+ DSA problems** on LeetCode and **1,000+ problems** across competitive coding platforms.
- **Competitive Programming**: Achieved a highest rating of **1700** on CodeChef and secured **Global Rank 77** in Cook-Off.
